There are times in the regular work of newspaper life when editors smile, and again there are times when circumstances force him to regret that individuals, solely for the purpose of gaining a selfish end, can secure admission in the ranks of journalists and use the columns of what should be the great educator of the masses for a display of slang and ignorance.

The letter received by Mr. Way, and published in another column of this paper, is only one of the many reaching here by every mail asking for information respecting our favored district. Judging from the tone of these enquiries we are satisfied that once the outside world get to learn that a railroad has found us out thousands of people who have been unfortunate in their locations will abandon and secure more profitable ones from some of the fertile lands around Prince Albert.

FRIDAY, APRIL 11, 1890.

We congratulate the editor of the *Saskatchewan* on having a fairly full knowledge of the powers possessed by the Lieut. Governor and his Advisory Council under the provisions of the N.W.T. Act; but demanding, as he does, a change in our system of government on account of these powers. Some reasons other than England having fought many sanguinary battles for control of funds must be advanced. That the powers of the Lieut. Governor and Council are large we admit, but the circumstances of population and territory warrant it, and important questions for the consideration of the *Saskatchewan* and the public are, have these powers been abused, or has any disposition to abuse them been shown? He is described as a despot, but has he ever shown such to be the case? Has he ever refused to act, on any question of finance, as advised by his Council? Or has he and his Advisory Council performed any acts of administration unsatisfactory to the people or the representatives of the people? Is the system not an economic one, and under it do the people not enjoy nearly all the advantages which full responsible government would give without any of its ill effects? These are a few of the many questions which must be answered before important changes in the constitution can be reasonably demanded. And they are important very much more so than many of the vapourings of the learned doctor respecting the definitions of what responsible government is. We repeat the system was a novel one, and is entitled to a fair trial. Experience will suggest any changes necessary, and when necessary we have no doubt they will be made. But in view of the great change in population which must take place in Saskatchewan within a very limited period, it is to our interest that the present system—or one very similar—be retained, until such times as the strength of our population is established on a stronger basis than that represented in the present Assembly.

The few agitators who are anxious to prefix Honorable to their names should be given to understand that the interests of the actual settlers must first be considered, their turn will come afterwards.

RESPONSIBLE GOVERNMENT.

Some time since we gave expression to our opinion as to the satisfaction felt throughout the country with the present system of local government and stated that with a few amendments it would for some time to come, be satisfactory to us, also intimating that we would never champion Fall Responsible Government with one Legislature for the whole of the Territories. The *Saskatchewan* takes exception to this, and coupled with its own peculiar slang expressions, takes up the position, full responsible government with one legislature and Regina for our capital.

Realizing as we do the great future ahead of Saskatchewan and the importance of the position which we in Prince Albert may occupy within a very limited number of years, we can only express a feeling of disgust that there should be found in our midst individuals who, for reasons not yet apparent, are prepared to sacrifice those prospects and ready to advocate the importance of a scheme which can only be advanced at this stage of our development, in the interest of those provisional districts which unfortunately for themselves have not the natural advantages on which to found their hopes for as great a future as we possess. The scientific editor who has set out to establish for years to come, a capital for Saskatchewan at Regina, should go slowly. He should follow out the opinions of his paper when first published. He should look and count on the position our Province will occupy soon after the shrill whistle of the locomotive is heard upon the Saskatchewan, making easy the trip by which the advancing settler will find his way to the fertile belt. If they believe what no sane man doubts, that the tide of emigration will move towards our fertile lands immediately after the railway reaches us, why get into a rage and throw mud at us for a hope for the future and expressing a desire that, in view of its approach, no immediate changes be made in our system of government. It should not be forgotten that a census is to be taken in the near future, which when completed will show a strength of population that may surprise even the learned doctor, and possibly he may then regret having allowed himself to be used in the interests of Regina.

We have the country and are satisfied that within a very limited time we will have population sufficient to justify us in demanding a local government for Saskatchewan, with Prince Albert—not Regina—for its capital. When that time comes we will be found active in our demands, but not until we lose faith in the resources of our district will we consent to seeing it handicapped in the way the *Saskatchewan* suggests.

COMMUNICATIONS.

LETTER OF ENQUIRY.

The following letter was received by the postmaster here, this week. We give the answers after each question.

MADISONVILLE, Ky., March 22, 1890
POSTMASTER, Prince Albert, Saskatchewan, Dom. of Canada.

DEAR SIR,

I am desirous of moving to a colder climate, one not so changeable as this. Please answer the following questions, or hand this to some real estate agent for reply:—

Is your climate healthy? Yes.
Is your section an agricultural region? Agriculture and Stock.

What crops do best, and what is the yield? Hard wheat, oats and barley. The yield depends on the season, and quality of cultivation. Fair estimates would be:—wheat, 25 to 35 bushels per acre; oats, 40 to 60 bushels per acre; barley, 35 to 50 bushels per acre.

What is the value of lands for farming? Lands may be bought at from two to five dollars per acre, or free homestead grants, of 160 acres, may be secured from the Government.

Can help of all kinds be readily obtained, and if so, at what price for the various occupations? The only help difficult to secure will be domestic servants, but this should not long exist. Wages are high.

Would be glad to receive any circular or other descriptive matter concerning your region. A district pamphlet is now being printed and we have so arranged that as soon as they are finished one will be sent you.

Hoping for an early reply.
I am
Yours most truly,
E. McCULLEY.

BREWERY!

Pure and Sparkling

AMBER---Hop---ALE,

Delivered to all Parts of the

OPEN THE BAY

Open the bay, which o'er the northland
broadly
Punch, yet in labor with a mighty fate!
Open the Bay! Humanity's fate!
And grapes prophetic round its solitude,
In eager thought that will no longer wait!

Open the Bay which Cabot first espied,
In days when they bark and pinnace bore
great pilots and brave captains true and
tried—
Those countless souls who battled far and
wide
With wind and wave in the great days
of yore.

Open the Bay which Hudson—doubly
crowned
By fame—to science and to history gave
his limit, this his utmost bound—
Here all unwittingly he sailed and found,
Across a path of empire and a grave!

Open the Bay! What cared the seaman grim
For towering icebergs or the crashing flood;
He sped at noonday or at midnight dim—
Aunt!—and, hence there was a way for
him
And where he went a thousand ships can
go

Open the Bay! the myriad prairies call:
Let homesteads rise and comforts multiply
Give to the world the shortest route of all—
Let justice triumph tho' the heavens should
fall
This is the voice of reason—manhood's
cry.

Open the Bay! Who are they that say "Not"
Who locks the portals Nature She re-
signed

Her reign, her stubborn frost and snow,
Her sovereign sway and sceptre, long ago
To sturdy manhood and the master mind:
Not these the foe! Not nature who is vain
When earnest hearts an earnest end
pursue;

But man's old selfishness and greed of gain;
These ancient breeders of earth's sin and
pain—
These are the thieves who steal the na-
tion's due!

Such are heirs of traders Gilliam led—
Such were they in the past, with souls
obdurate

When duty called—who recreant and dead
To England's honor hung the craven head,
And struck the British flag to LaPerouse.

And such are they who, in their Eastern
place,
Say, "It is folly and the purpose vain!"
The carrier and the shallow huckster's race
These are the hands, not Nature's which
efface

And send the public good for private gain.

Open the Bay! Let earth's poor people in!
What tho' the selfish interests lie and
flout—

Open the Bay! Let them grow and grin,
And Power still uphold them in their sin
Humanity, their master is about!

It looks abroad and, with purged vision,
sees
Man's wily nature bared not overcast.
It comes to scatter to the winds his pleas,
His privilege and bland accessories,
And with strong arm right the wronged
land at last!

Prince Albert, N. W. T.

GENERAL NEWS.

TORONTO, March 30.—Rev. R. Wallace,
one of the oldest and most zealous work-
ers in the Presbyterian Church, preached
his farewell sermon to-night. He entered
the ministry half a century ago and
retires on account of ill health. The
congregation have presented him with
\$3,200.

WINNIPEG, March 30.—Geo. Thompson
night watchman of Walker's cattle barn,
and his eight-year-old son had a narrow
escape from being gored to death by an
infuriated cow on Saturday. The cow
threw the boy into the air, one of the
brute's horns penetrating the boy's abdo-
men. Thompson escaped with a few
bruises. The son now lies in a critical
condition.

BELLEVILLE, March 30.—A writ will
be issued against Ald. E. G. Parker,
claiming damages for the alleged seduc-
tion of a young woman named Sweet who
was two years a domestic in his service.
Parker denies the charge.

ST. CATERINES, March 30.—Lincoln
Conservatives have nominated Major
Hiscock, of the 39th Battalion reeve of
Niagara Township, for the Legislative
Assembly. E. F. Dwyer had been chosen
but he refused to stand.

WINNIPEG, March 30.—The man sup-
posed to be McDuff, who was arrested at
Winnipeg recently, charged with the
Hilton murder at Tillbury Centre, ar-
rived here on Saturday night.

OTTAWA, March 30.—Several delega-
tions are on their way to this city regard-
ing the tariff changes. They include
those in the spirit trade of Montreal and
the pork dealers of Hamilton and
Toronto.

BELLEVILLE, March 30.—Wm. Clow
jumped from a moving freight train at
the station to-day and received injuries
which resulted in his death in a few
hours.

TORONTO, March 29.—Changes in tariff

caused considerable discussion in trade
circles and among manufacturers yester-
day. On the whole the action of the
Government in continuing its policy of
protecting the industries of the country
was generally approved by manufacturers.
The millers are satisfied that the Govern-
ment has done all it could to accede to
their demand for justice. They asked
an increase to one dollar per barrel on
flour, but 25 cents advance over the low
duty of 50 cents, will it is pointed out,
have the effect of materially checking
exports from the United States to Canada
and many roller mills which were com-
pelled to close down and others which
have been run half and quarter time may
be expected to resume shortly.

OTTAWA, March 30.—The annual re-
port of the Minister of the Interior has
been completed. During 1889 there were
696,050 acres homestead entries, 212,651
acres pre-emptions, and 177,092 acres
sold. The area entered by actual settlers
was greater than any year except 1882
and 1883, the increase over 1888 being
275,000 acres. Arrangements are being
made by which the difficulty caused by
the abolition of pre-emptions will be
avoided and settlers given an opportu-
nity to purchase the adjoining quarter
section on easy terms. The net revenue
of the Department for the year ending
October, 1889 was \$588,861, \$563,709 for
the previous year. The revenue from
timber, mineral and grazing lands was
\$102,732; timber dues, \$77,071; grazing
lands, \$7,811; hay dues, \$6,909. The
report estimates the live stock in the
Alberta and Assiniboia grazing
districts consist of 100,063 cattle; 13,322
horses and 44,821 sheep, but it is
unable to state the number in the remain-
der of the Northwest or in Manitoba.
The greater part of Deputy Minister
Burgess' report is taken up with an
account of his trip to the Saskatchewan
and his views on the half breed question.
He reports a good deal of actual distress
among them during the winter and re-
gards their position as perilous in view
of the extension of railways and the con-
sequent abolition of freighting. The
action of the Northwest Assembly en-
dorsing half-breed claims for scrip is
criticized, in view of the hasty disposal
of previous scrip and low prices. A cal-
culation is made that it will require \$1-
200,000 in scrip to accede to the half-breed
demands. The belief is expressed that
such relief would only be temporary, the
need for further assistance would soon
rise again and the report expresses the
doubt how such a step can be justified
on the ground of equity and public
policy. In conclusion Mr. Burgess recom-
mends that the Government should
answer the half-breed petitions in decisive
language to the effect that so many as
desire to continue the privileges of
citizenship must accept its full responsi-
bilities and support themselves and fami-
lies independent of Government assist-
ance, and that the remainder be dealt
with as wards of the Government. No
settlement of the question will be satis-
factory or permanent which does not in-
volve some form of tutelage for those
unable to provide for themselves.

THE MARCH TO BATTLEFORD.

TORONTO, March 29.—A grand re-union
of those who took part in the march from
the Saskatchewan to Battleford during
the Northwest rebellion was held last
night at Webb's assembly rooms. Five
years ago the bugle sounded through the
streets calling the Queen's Own and
Grenadiers to active service, and inci-
dents of the campaign which followed
were recalled around the festive board.
Col. Otter presided and among those
around him were Lieut. Col. Grassett,
Lieut. Col. Miller, Lieut. Col. Hamilton,
ex-Mayor Manning, Warring Kennedy,
E. Sheppard and about two hundred of
those who formed the Battleford column,
chiefly members of the Queen's Own.
Col. Otter in his speech pointed out that
the march to Battleford was at the rate
of fifty miles per day, the most rapid
march in military annals, beating Sher-
man, Napoleon and the Prussians. He
did not know if it was due to their own
modesty or not, but there was no doubt
about the fact that the rapid march made
to Battleford was never properly recog-
nized. Perhaps the trouble was that
newspaper correspondents had not caught
up with them until three days after they
reached Battleford. (Laughter) The
renowned Battleford column consisted of
the Queen's Own Rifles and A Battery.
Nearly all those present at the banquet
were in the column when it marched from
the Saskatchewan. Speeches were all of
an enthusiastic character, and the
evening was greatly enjoyed by those
present.

action, and imparts strength to the whole system. Such is the immediate and lasting
effect that it is warranted to break up the most distressing cough
in a few hours' time, if not of too long standing. It contains no opium in any
form and is warranted to be perfectly harmless to the most delicate child. There is no
real necessity for so many deaths by consumption when Allen's Lung Balsam will pre-
vent it if only taken in time. For Consumption, and all diseases of the Lungs, ALLEN'S
LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough
it is almost a specific. It is an old standard
remedy, and sold universally at 50 cents
and \$1.00 per bottle. The 25-cent bottles
are put out to answer the constant call
for a Good and Low-Priced COUGH CURE.
If you have not tried the Balsam, call for a
25-cent bottle to test it.

Allen's Lung Balsam was introduced
to the public after its merits for the positive
cure of such diseases had been fully tested.
It excites expectoration and causes the Lungs
to throw off the phlegm or mucus; cleanses
the secretions and purifies the blood; breaks
the irritated parts; gives strength to the res-
pirative organs; brings the liver to its proper
action, and imparts strength to the whole system.
